

The Monthly [Amunategui.GitHub.io](https://github.com/Amunategui) [ViralML.com](https://viralml.com) Newsletter

April 2018

Hello Friends!

Here is a quick update and some great early-access content for my subscribers. I will be drip-releasing them to the public this month but you get it all now :-)

I hope everybody is doing great, learning lots and creating beautiful things! I upgraded my microphone to an Audio Technica ATR2100-USB and I also upgraded my filming quality by using my iPhone instead of the builtin MacBook camera. These were both huge upgrades (I will do a video on this) and I hope you find the quality more professional (at the very least not as distracting as before). Now I can finally really focus on content creation.

Pre-release YouTube Videos Exclusive for Newsletter Subscribers:

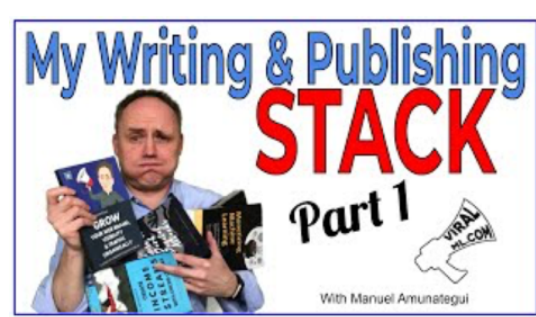

[Investing The Bogleheads Way - A Safer & Longer-Term Approach: Hands-On Market Analysis with Python.](#)

If you aren't familiar with the Bogleheads' investment philosophy and you're looking for a simple and cost-effective way to invest money over the long term, then you're in for a treat. Let's roll up our sleeves and dig into this investing approach using Python and Jupyter.

[The Case-Shiller Index, Real Estate and Inflation: Hands-On Market Analysis with Python.](#)

Let's look at the most famous real estate indicator and data source - the Case-Shiller index. Let's roll up our sleeves and compare the S&P 500 with the Case-Shiller home data, make some candlesticks and even adjust it for inflation!

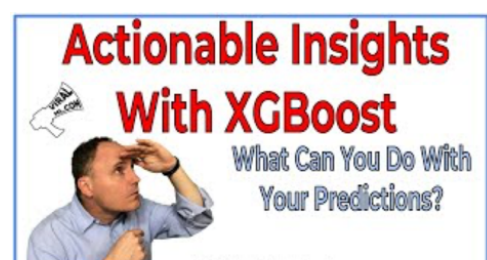

[My Writing & Publishing Stack - Tools to Get Published - Part 1](#)

In the series, I will present and discuss my writing and publishing stack. What does this mean? These are the tools I use from growing my ideas all the way having a self-published book available in both electronic and print form.
