

## The [ViralML.com](https://viralml.com) Newsletter

April 29th, 2019

Hello Friends!

Here are some of the most popular videos produced in the last week and a few exclusive ones. I also have should have my new book out in about a week called **"The Little Book of Fundamental Indicators"** where I share my favorite hands-on market analysis fundamental indicators and data sets. Things like the S&P500, unemployment, real estate, CPI, VIX, etc.

If any of you want a free copy of one of my self-published ebooks, please respond to this email with the title of interest and I'll send you a copy.

### Pre-release YouTube Videos Exclusive for Newsletter Subscribers:

### [Biggest Ever Short VIX Position - What Does That Mean? Hands-On Market Analysis with Python](#)

What does it mean when we have one of the biggest short positions in the VIX ever? Let's dig into the data with another Hands-On Market Analysis with Python.

### [Cultivate Motivation - Start a New Business Each and Every Morning](#)

I love mornings! It is my favorite time. It's the only vantage point where you can visualize your entire day and the positive impact it can have. And with a little strategy and planning, its impact can be huge!

### A Popular Video Since the Last Newsletter:

### [Predict What Your Web Users are Doing \(or Drawing\) with CNN, Tensorflow 2.0 and Keras - Applied ML!](#)

In this video, I'll walk you through building a Tensorflow 2.0 number predicting web application, online game, saas application. Here we explore extending a machine learning model into something applied the whole world can enjoy it.

### [Elon Musk's Lonely Long Term Tesla Vision - Rising Above the Noise](#)

A bumpy short term ride for Elon Musk and Tesla yet a promising long term journey. Let's take a brief look at what is going on now and what's next in store. We'll even look at a Tug-of-war chart of Nvidia and Tesla.

### [Downloadable eBook "Become a Data Scientist"](#)

Here is the link for those looking for my free eBook, Become a Data Scientist: Essential Tips to Complement your Technical Studies. Let me know how you like it and best of luck with your exploration of data science. It's a fantastic field where we feel like students every day.
