September 16th, 2019

Hello Friends!

I am half-way through a series of videos to get a smart landing page out with Python and Flask - quickly, professionally and cheaply! My three favorite words. Here are the first 6 parts for your enjoyment.

Also, to mix things up a bit, I am offering one of my R UdeMy classes for free this time:

Practical Data Science: Analyzing Stock Market Data with R

- Learn basic financial technical analysis technics using R (quantmod, TTR) to better understand your favorites stocks.

Practical Data Science: Analyzing Stock Market Data with R

LIVE

\$49.99 - Public

Email me if you are interested and I'll send you a free coupon. All I ask is that you review the class - stellar reviews please :-)

Starting A New Business Smart Landing Page Series:

[Part 1: Building a Flask page using HTML5UP and PythonAnywhere](#)

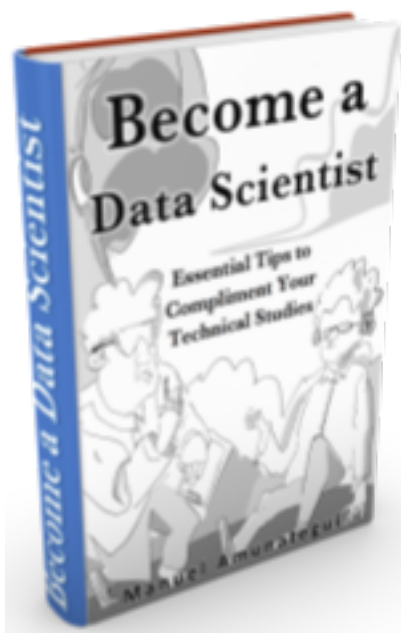

[Part 2: Adding a 'Contact Us' email form using SendGrid](#)

[Part 3: Create a Pixel Tracker To Learn More About Our Visitors](#)

[Part 4: Dynamic Charting with Flask, Matplotlib, Chart.JS](#)

[Part 5: Simple Credit Card Processing with Stripe Checkout](#)

[Part 6: Search Engine Optimization \(SEO\) Basics](#)

[Downloadable eBook "Become a Data Scientist"](#)

Here is the link for those looking for my free eBook, Become a Data Scientist: Essential Tips to Compliment your Technical Studies. Let me know how you like it and best of luck with your exploration of data science. It's a fantastic field where we feel like students every day.

Thanks for your continued interest and support!
