

## The Weekly [Amunategui.GitHub.io](https://amunategui.github.io) and [ViralML.com](https://viralml.com) Newsletter

November 5th, 2018

### Hello Friends!

I just pushed out a new article on the topic of SaaS and Data Science. For those seeking a simple framework to test out monetizable ideas, this is for you. I also added two links to two great posts that I'll paste here as well just in case you don't read my article, they're well worth a read!

The first is from Indie Hackers: [“How to Come Up with Profitable Online Business Ideas”](#)

And a must read is this WSJ article on leveraging and monetizing data: ["Your Smartphone's Location Data Is Worth Big Money to Wall Street"](#)

Thanks,  
Manuel Amunategui

### [SaaS and Data Science, a Powerful Combination for Testing Side Projects and Understanding Monetization](#)

Leverage Software as a Service Techniques to Create Strong Monetization Prototypes for Your Ideas. This is a match made in heaven for us weekend entrepreneurs and our burgeoning data science prototyping labs!

### [My Six Favorite Free Data Science Classes and the Giants Behind Them](#)

Here Are the Ground-Breaking Data Science Classes With Incredible Delivery and the Ability to Hold On to Our Attentions Till the End

### Free eBooks and Courses

### [How to Create and Sell Your Machine Learning Product Online and For Free!](#)

In the eBook, I show how to extend machine learning ideas from a standalone python script, into a fully interactive web application. We'll even integrate simple monetization techniques to gauge if users are willing to convert into buyers using PayPal donations and Stripe purchases!!!

Signup here:

<https://create-your-own-web-apps.gr8.com/>

Here is the link for those looking for my free eBook, **[Become a Data Scientist: Essential Tips to Complement your Technical Studies](#)**. Let me know how you like it and best of luck with your exploration of data science. It's a fantastic field where we feel like students every day.

### In-Depth Material

#### Monetizing ML is Out!

[Monetizing Machine Learning: Quickly Turn Python ML Ideas into Web Applications on the Serverless Cloud](#)

### [Online Class: Machine Learning Entrepreneurship - Master Class on Applied Data Science](#)

Become A Machine Learning Entrepreneur! Learn how to transform your ML ideas into fully interactive web applications and paywall subscription sites.

Thanks for your continued interest and support!

Sincerely,  
Manuel Amunategui
