The [ViralML.com](https://www.viralml.com) Newsletter

July 14th, 2019

Hello Friends!
My new Udemy class is up and running!!! If you are interested in finance and charting fundamental market data using Python and Jupyter notebooks, this class is for you (https://www.udemy.com/fundamental-market-analysis-with-python/).

And the BEST part is that all my subscribers can get class for free. If you want to take the class, send me an email and I'll send you a free coupon. All I ask is that you review the class - stellar reviews please :-)

As usual, thanks for your interest and your support through the years.

Popular Videos Since the Last Newsletter:

Market Recap in Charts - Week Ending July 13, 2019

Let's recap the price action over the past week using charts. We won't worry too much about the whys, more about the wheres. So, where the heck are we? More on the ViralML.com show.

Learning From Instagram Bots to Build a Better Twitter Brand

Let's look at two critical aspects of Instagram bots and apply them to build a stronger organic brand. I have applied these lessons to my Twitter account and it shows promise. Let's talk content, following, and followers.

Let's Talk Deep Patterns on the Internet! And How to Fight Back!

These are subtle, underhanded, almost subconscious ways we are nudged, herded, constantly probed and manipulated into doing things against our better judgment. Let's fight back with Mozilla and Firefox!

Downloadable eBook "Become a Data Scientist"

Here is the link for those looking for my free eBook, Become a Data Scientist: Essential Tips to Compliment your Technical Studies. Let me know how you like it and best of luck with your exploration of data science. It's a fantastic field where we feel like students every day.

Thanks for your continued interest and support!
